Technical Report

The 2026 European Deaf Orienteering Championships were held in Serres, Greece, from 13 to 17 October 2026, with 38 athletes (27 men and 11 women) from 11 countries. The programme included Middle Distance, Long Distance and Men's Relay.

The competitions were held at three venues: Nerotopos (Middle Distance), Ai Giorgis Valley (Long Distance) and Lailias Ski Centre (Men's Relay).

The Middle Distance on 14 October was originally scheduled to start at 10:00. Due to strong winds and safety considerations, the start was postponed to 12:00.

Two Swedish athletes with visual impairments participated in the Championships. Following the approved map-scale arrangement, all men competed using 1:7,500 maps. The women's map scales remained in accordance with the applicable IOF specifications.

The published expected winning times were 35 minutes for Middle Distance, 90 minutes for Long Distance and 90–105 minutes overall for the Men's Relay. Actual winning times were longer, particularly in the Middle Distance and Men's Relay. This should be considered when planning and testing courses for future EDOC competitions.

GPS live tracking through OTRACKER was used during the competitions. Final results, split times, competition maps and GPS tracking records are included in this report.

Overall, the Championships were successfully completed. The experience from EDOC 2026 will help improve course planning, expected winning times, weather-related safety decisions and technical organisation at future European Deaf Orienteering Championships.

Confirmation of Results

I hereby confirm that the orienteering competitions held as part of the 11th European Deaf Orienteering Championships in Serres, Greece, in 2026 were conducted in accordance with the applicable IOF and EDSO rules and regulations.

I further confirm that the official competition results have been reviewed and are accurate and correct.
